

Welcome to the Family

We want to make your journey as a Metronet customer as easy as possible. This Digital Welcome Guide is designed to set expectations for the installation process. The tools and resources provided will ensure you get the most out of your Metronet experience.

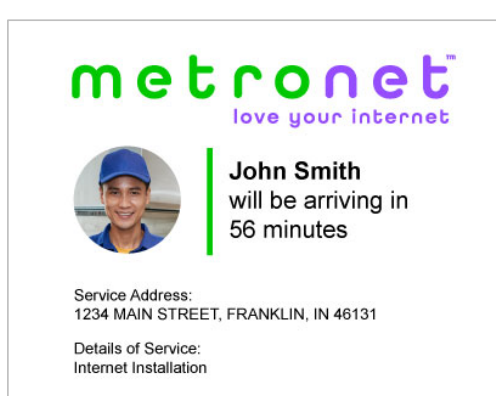

What's Next?

1 Preparing For Installation

You will receive installation reminders the day before your scheduled installation, the day of your installation, when your technician is on the way, and once the technician has arrived. These notifications will be in the form of a call, email, or text, depending on your contact preferences.

Please note:

- Installation will take approximately 2 - 4 hours
- An adult (18+ years old) must be present
- Please ensure all indoor pets are contained upon technician's arrival
- Additional equipment may be installed on the outside of your home
- The fiber line in your yard will be buried within 14 business days (weather permitting)

2 Day Of Installation

Expect your technician to arrive during the scheduled appointment window. As stated above, your installation will take approximately 2 - 4 hours.

Once the technician has completed your installation, you will receive a copy of your Installation Checklist and Work Order.

A technician will also walk you through your Metronet products and services to ensure everything is working properly. If you have any questions during the installation process, your technician will answer those for you!

Lastly, we are always looking for ways to improve. You will receive a Technician Survey once your installation is complete. We hope you take the time to complete this survey.

3 Day After Installation

You will receive a Welcome email from our Metronet CEO, Dave Heimbach. This email will detail:

- How to read your first bill
- Information about myMetronet Portal
- Instructions to access the Virtual Learning Library
- Additional resources to maximize your Metronet experience
