

MaxUC COMMUNICATOR FOR MOBILE

The following instructions were obtained while installing MaxUC Communicator on an iPhone 11. Some steps may look slightly different or be in a different order on other devices. MaxUC may ask for additional permissions. Use your discretion for choices not mentioned in this document.

> Download Accession Communicator from your App Store.

MaX UC Metaswitch Networks

 Click Open or find the Accession icon in your apps to launch the application.

You may get prompts asking you to allow MaxUC access to pictures and video, audio, phone calls, files, and contacts. For full functionality, please allow access.

4) Click the <u>Log in Manually</u> button.

 The screen asks you to choose your carrier. Find and click on <u>Jaguar</u> Communications.
